

NAAC CEU Approved Classes Available at Texas EMS Conference 2020 - Virtual

Pre-Conference Offering

Certified Ambulance Documentation Specialist (CADS)

Virtual rate \$249; Saturday, 11/21, 9:00 am–3:30 pm; 30 minutes for lunch on own; Virtual via GoToWebinar; CE: AOR or additional, 6 hours. Why become a Certified Ambulance Documentation Specialist? High-quality patient care reports (PCRs) can keep your service out of trouble! Poor PCRs can expose providers to liability in court, decrease revenues and create compliance problems. Developed by the National Academy of Ambulance Compliance, this dynamic, interactive course with real-world scenarios will keep your attention while you learn key concepts. Topics addressed include documenting medical necessity, writing effective clinical narrative that supports proper ICD coding, addressing special challenges for non-emergency and repetitive patient documentation, identifying proper methods of modifying or amending PCRs and reducing medical malpractice liability. CADS content is geared specifically to EMS personnel such as EMTs and paramedics and is appropriate for QA/QI personnel, supervisors/managers, compliance officers, billers and anyone else involved in EMS. For more information on course content, call the National Academy of Ambulance Compliance at 877-765-6222 or visit <https://www.ambulancecompliance.com/content/about-certified-ambulance-documentation-specialist-cads>.
